

Puerto Marina Benalmadena / Malaga

Puerto Marina Benalmadena / Malaga

[Benalmadena port](#) (better known as '*Puerto Marina*') is one of the best prepared port and residential complexes in the world, with a very attractive architecture and a blue flag distinction for the quality it has always offered since 1987. The port has a privileged climate all year round and a huge calendar of events.

[Puerto Marina's Shopping](#)

Puerto Marina also has bars, restaurants, a shopping centre and shops all along its interior promenade that takes us from one extreme of the port to the other. There is also a large public and private parking lot at reasonable prices.

Surrounded by two top-quality beaches, and with many hotels nearby, Puerto Marina is a highly recommended destination for your holidays.
